God often uses the least likely people to accomplish his will, even working in spite of our human tendency to do what's right in our own eyes. In this verse-by-verse study through the book of Judges, Skip Heitzig explores a dark and difficult season in Israel's history, revealing not just the dangerous grasp of the sin cycle but also God's plan to appoint imperfect leaders to deliver his people. We discover that even when we're at our worst, God still makes a way to break our patterns of sin and lead us into redemption.
