author	Janice Cole
readBy	Craig Van
inLanguage	english

Jocelyn Wright would prefer to be outside, with her twin brother, instead of in drawing rooms and social events. She has had to hide her true self, and pretend to be the young lady everyone expects. But, as Jonas gets ready to attend Philadelphia College, the colonies'™ rebellion against the crown heats up, and her family is forced to quarter British soldiers. That's when Bennet Hart comes into the picture, and changes come much too fast, for even her.
