***Some things are better left unknown.***  
*Dawsyn*  
All my life I'd been nothing more than the alpha's daughter. After twenty-two years of that existence, I finally leave my pack, intent to figure out who I am. Except a week into my newfound freedom, I discover that dragon shifters exist. Not only that, but the first one I stumble upon turns out to be my mate. One I don't want and never asked for. It's not like Cillian is bad on the eyes or that I'm repulsed by his grumpy demeanor. In fact, everything about him is rather appealing. He just wasn't part of the plan.  
*Cillian*  
The realm I call home is under attack and things are only getting worse as the weeks pass. When I decide to do something about that, I get more than I bargained for. I get Dawsyn Chase. A wolf shifter with a bite as vicious as her words that also happens to be my fated mate. She's a distraction I intend to stay away from, but when the world demands otherwise! It could be more than our bond at stake if we're not careful.  
*This is a slow burn Paranormal Romance trilogy set in the Mystics and Mayhem world, but can be listened to on its own without major spoilers to past series. If you love fated mates who don't fall instantly in love, swoon-worthy dragon heroes, and feisty heroines, then you don't want to miss out on these books! The first two books will end on a cliffhanger.*
