Jordan

I don't know anything about going out with girls....
Itâ€™s not been on my radar so why now?
All it took was one hot summer day right after graduation....
Mom and Dad's going on vacation and they're leaving me alone; an 18-year-old for one whole month....
Not ideal, huh?
Just when I thought I was having the house to myself, along comes mom's close friend, Ms. Evelyn to babysit me....
The only question that I need to ask is why now?
