R. Austin Freeman's famous forensic investigator, Dr. John Thorndyke, is asked by a former student to help on his first murder case. A prostitute has been murdered, and it seems a woman has done the heinous deed. Dr. Thorndyke helps find the actual murderer with the evidence available.

Richard Austin Freeman (April 11,1862-September 28, 1943) was a British writer of detective stories, mostly featuring the medical-legal forensic investigator Dr. Thorndyke. He claimed to have invented the inverted detective story (a crime fiction in which the commission of the crime is described at the beginning, usually including the identity of the perpetrator, with the story then describing the detective's attempt to solve the mystery). Freeman used some of his early experiences as a colonial surgeon in his novels.

Actress Cecily Thompson, a native of Manchester, has been narrating for radio, television, and audiobooks for over five years. She enjoys writing poetry and tending for her four cats.
