Evoking Beyoncé's *Lemonade* for a teen audience, these authors who are truly Octavia Butler's heirs have woven worlds to create a stunning narrative that puts Black women and gender-nonconforming individuals at its center. *A Phoenix First Must Burn* will take you on a journey from folktales retold to futuristic societies and everything in between. Filled with stories of love and betrayal, strength and resistance, this collection contains an array of complex and true-to-life characters through which you cannot help but see yourself reflected. Witches and scientists, sisters and lovers, priestesses and rebels - the heroines of this anthology shine brightly. You will never forget them.
