Synopsis

author	Leon Bibi
readBy	Raymond Gray
inLanguage	english

Adam - The Missing Link is the third and final book of The Adam Series trilogy by author Leon Bibi. In this final chapter, evidence of extraterrestrial tampering with human DNA is explored, and evidence given to prove that the Missing Link has never been missing. It is not found â€œembedded in the crust of the Earthâ€•, it is found within us. The missing link is not a â€œtransitional formâ€• that proves that man is a direct descendant of the ape, it is an alteration of DNA. What do the following scientists have in common? Nikola Tesla, Carl Sagan, Albert Einstein, and Stephen Hawking? They all believed that life on Earth originated in the stars. What do all of the following symbols have in common? The Caduceous Symbol of Medicine, The Sumerian Tree of Life, and Snakes from the Bible? They are all representations of DNA. Why do 223 genes in our genome have no known earthly predecessor? Genes such as - Chromosome 2, MIR-941, SRGAP2, and FOXP2? They are all examples of fusion by extraterrestrials. If Darwin was right, why has there never been any evidence of â€œinnumerable transitional formsâ€• to prove his Theory? There isnâ€™t any evidence, and there never will be....
