Adoption Healing is a unique book. The listener is provided with a description of the immaculate deception imposed on pregnant women and the ensuing tragedy of the loss of their babies to adoption and the profound effects on their lives. This is followed by different methods of healing the mother's wounds, including inner-child work, visualizations, healing affirmations, and anger management. Every chapter includes a "Myths and Realities" of adoption section, a summary of the chapter, and exercises to do on one's own.
