readBy	M. K. Sullivan
inLanguage	english

The story follows Aleahcym as she uncovers the brutal history of her ancestry. Many years ago, a vicious murder caused a deep division within her tribe. An ancestor was falsely accused, which led to the tribe being torn in two and almost completely wiped out. Both tribes held a dark secret involving werewolves and shifters. Aleahcym discovers that she has the ability to reset her life after death, but this power comes at a great cost. Now, a dragon named Darkness is seeking to erase her from existence.
