Moira and Jack Taylor own a thriving rag-and-bone business, and have six children. Their contented family life is upset when their eldest daughter, Nora, steals 18-year-old Maggieâ€™s fiancÃ©, Robert, a widower with a young son. Maggie, heartbroken, swears that she will never forgive her sisterâ€™s betrayal. The First World War and the Spanish flu epidemic of 1919 bring further tragedy, and the younger generation of the Taylor family embark on their own adventures. Noraâ€™s beloved son, Charlie, takes centre stage in this warm-hearted family saga, as he struggles to keep the family business going through the difficult years that follow, spanning World War Two and Beyond.
