BB-39 is a story about a group of five young men, part of the Greatest Generation, who join the US Navy in 1938. It chronicles their lives in the prewar battleship navy and beyond. Events out of their control fracture their friendship, their loves, and their lives. Forged into men by a conflict greater than themselves, the survivors of December 7 and those they love move in divergent paths. In 1990 an accident near the Wailing Wall in Israel starts another chain of events that brings redemption, a twilight lovers reunion, and a Siberian POW rescue.
