Synopsis

author	Jasmine Fairy
readBy	Erika Merri
inLanguage	english

If you want fantastic plots for boys and girls, including stories of guided meditation and hypnosis, so that they fall asleep immediately, then keep listening....

Children always find it hard to fall asleep, and in the evening, they are always livelier. How many times have you come home tired from work and had to read them a fairy tale before they would fall asleep? How much time did you waste before you succeeded?

Or maybe you have both male and female children and they fight each other, and in the evening, you find it hard to keep them quiet.

This happens because many parents underestimate the power of bedtime meditation stories for deep sleep. Wouldn't you like to have more time for yourself while your children listen to a fairy tale and fall asleep very quickly and stay asleep? No more little alarm clocks during the night!

The goal of this audiobook is to be able to relieve stress in children and make them sleep deeply throughout the night, through relaxing fairy tales with intriguing plots for both males and females. Each plot includes a well-written story for guided meditation and hypnosis.

What are the benefits of this audiobook?

- Twelve fantastic bedtime stories for deep sleep for both males and females
- Your child will sleep soundly from the first night of listening.
- You will be able to rest without being disturbed by your child.
- Simple plots to understand for children
- Detailed plots that go deep into the story and make children fantasize
- Long stories that manage to give the child time to fall asleep
- Interesting and compelling stories for males and females of all ages

Bedtime Stories for Kids, Book 3 will make your children sleep soundly within 17 minutes, even if they are lively and have never been able to hear a fairy tale in their life.
