In a future world ruled by warring mega-corporations, cyborg Nephilim believed she was fighting a righteous cause.

As a powerful, cybernetically enhanced elite soldier her job is to do all the dirty work for the mega-corporation she belongs to. She and her elite cyborg squad are deployed on the most dangerous missions – to protect Olympos from threats outside and inside at any cost.

One day, a malfunction in her implants separates her from the all-controlling grid. For the first time in her life, Nephilim is free.

She learns that everything she has believed in all her life is a lie and decides to defend her newfound freedom.

But Metatron, the leader of her unit, has very special plans for her future and won't let her get away.

Soon, Nephilim finds herself hunted by the killer squads she once belonged to. She's the best of them but will her skills be enough to survive?

Blade Runner meets John Wick with a badass female lead!
