Sophie Scott is a privileged but hard working London girl who's had just about enough of her mother's obsessive attempts to set her up with an eligible bachelor. She has no interest in dating and has never been in love.

When she meets her new colleague Mel on a business trip to Hong Kong, her whole world is turned upside down by the beautiful and independent woman who couldn't be more different from her. It's hard to hide from love in a city that never dims its lights. But love is never easy when everything you know changes....
