I was raised on lies, but the truth might be the death of me.

It wasn't easy to free my mind from all the lies the Lux Academy raised me on, but I'm finally coming to terms with who I really am.

I've only started to accept my new life and what I must do when Val—the only friend I thought I had left from my previous life—kidnaps me and promises to make me pay for Magistrate Magnus's death.

As he drags me away, I know I won't get a fair trial and must accept my grim fate.

But I'm in for a surprise because my new pack isn't ready to give up on me and is determined to make me a candidate in their alpha trials.

Will the shifter blood running in my veins help me rise to the challenge? Or will the city rat remain a city rat forever?
