My new billionaire boss is hot as sin. He also happens to be the devil himself.
And there's only one thing he wants.
Me.
I never meant to get caught stealing a priceless artifact from Lucas Hale, Los Angeles's most notorious playboy billionaire. And I definitely never expected him to offer me a job as a way to pay off my debt.
But if it keeps me out of jail, I can play the role of assistant to this cocky, gorgeous man. It can't be that hard, right?
Even if the chemistry between us is so intense that just being in the same room with him makes my blood heat.
Even if I accidentally walk in on him taking care of himself during my first week in the office and I swear I hear him groan my name.
Even if I don't quite understand how he moves so fast when he saves me from a psycho who tries to attack me on the street.
On second thought, maybe I'm in over my head with this new job. Because I'm starting to get the feeling there's a lot more to Lucas Hale than meets the eye. A darker, more dangerous side of him than anyone knows.
And the most terrifying part?
That's the side of him that tempts me.

Chosen by Lucifer is a steamy paranormal romance where the villain gets the girl.
This omnibus contains all three books in the series:
Dark Prince
Ruthless Demon
Fallen Mate
