When a group of teens go for a weekend camping trip in the rugged granite mountains of southwest Oklahoma, they encounter danger from a mysterious killer who has already taken the lives of several others. Unknown to the teens is the fact that a local woman is also searching for answers as to what happened to her son and his friends after they have gone missing from their job. Only one man knows the secrets that have invaded his land, but he's not telling in this terrifying adventure novelette.
