When illegally crossing the American border from Mexico there are three things you must understand: Watch for headlights in the woods, follow the power lines and wind pumps, and learn to swim before crossing the river.

When he was a child, author Victor Maya’s mother paid smugglers to reunite her with her children in Houston, Texas. Two coyotes, two siblings, and Victor, a little boy who couldn’t swim.

That little boy’s story is no fairy tale. He made many mistakes. But every decision – both good and bad – shaped him into the man and business leader he is today. Since that epic swim across the Mexico border, Victor has grown multi-million dollar businesses, worked to restore his marriage, and now, has documented his life’s journey in hopes of helping others conquer their past and make a way for themselves.

If you’re tired of perfectly scripted self-help books, this is the book for you. *Conquer* is Victor’s whole story – raw and unedited – and it’s your guide (and pitfall avoidance map) to personal wealth and success.
