In the skies above the Pacific, a U.S. Navy F/A-18 from the USS *Abraham Lincoln* blows up. The question is *why?* But answers aren't easy to find.

When another jet mysteriously explodes in midair, the president can no longer ignore reality: U.S. forces are under attack. But by whom?

While the military and intelligence communities race for answers, the president calls on ex-CIA operatives and former military pilots Scott Dalton and Jackie Sullivan to launch their own investigation. An investigation that takes some shocking turns as they uncover a conspiracy that seems to lead directly to the heart of China....
