For 15 years, Robert Tell was his widowed Mom's caregiver as her mind and personality disappeared into the fog of dementia. He tells the tale with compassion and humor in this full length, fast moving memoir. His lesson: Caregiver burnout can be helped. Laugh and cry with him as he takes away her car keys, helps her move into tiny quarters with all her furniture, tries to undo mismanagement of her finances, and refuses to promise never to put her into a nursing home. One reviewer called it "a Neil Simon laugh and cry scenario." If you are watching your loved one vanish into the sinkhole of Alzheimer's Disease (or another dementia), *Dementia Diary* will lift your spirits.
