In an attempt to save Tyler and Matt, Lexi has made a deal with Scarlett. Now, she is forced to return to a house full of enemies, and she must take part in Anne's twisted games in order to buy herself and her friends time to find a way to void Scarlett's deal, and to protect the ones she love as well as herself.

Only this time, Tyler won't allow Lexi to stay at the house without one of his own there to protect her. As Anne takes advantage of Tyler's request to manipulate Loren and Lexi to be around each other, more about a distant past is revealed, and Tyler learns the true meaning of being a maker's minion.
