## Synopsis

---

When 29-year-old Natasha Waalen was found dead next to her dirt bike, police assumed it had been a terrible accident. They were wrong. Natasha had been murdered and her death was sloppily covered up to look like a motorcycle crash. Who would want this young mother, acupuncturist, and university graduate dead? Fingers soon pointed towards the father of her child and former boyfriend, Ryan Boland as the police uncovered the violent, questionable past behind Ryan's good ol' boy facade. But the town soon questioned if he had acted alone.
