Lady Grace gets an indecent proposal she just can't turn down! And so does her gorgeous 19-year-old daughter!

Grace and her daughter Pru were privileged members of the English aristocracy. Gorgeous and as graceful as her name suggested, her ladyship was stuck in a barren marriage, her husband being far more interested in young men. He was her husband all the same and her own fortunes were tied to his. When a strange Russian couple turned up at her home with pictures that could ruin him, she was therefore easy game for manipulation. When she agreed to a night as a party escort, Grace had no idea that she was on a very slippery slide to complete sexual servitude. Little did she know that her lovely daughter was being put in exactly the same position. Their entitled lifestyles were to come abruptly to an end as a whole new future began to unfold.
