The more things change, the more they stay the same! 100 years in the future, there are still fanatics terrorists who seek to create chaos and mayhem wherever they can, navy ships patrolling off foreign shores, US Marines deployed and international peacekeeping efforts that don't always keep the peace. In the jungles of Africa, a courageous, tough, highly competent (and beautiful) Marine Force Recon squad leader named Susan "Molly" Bennett can't just sit by and watch while some of the world's most wanted terrorists murder their captives right in front of her eyes. Molly's actions make her a target that only grows bigger after a fortunate meeting with navy Lieutenant Paul "Rick" O'Brien and his family of extraordinary women and girls including his precocious daughter Ciara. Hunted by teams of assassins they form an unbreakable bond that will serve them well as events unfold around them. As the hunters close in on them, a lack of better options forces them to make a fateful decision that will separate Rick from his little girl for what may be years and will have far-reaching ramifications for the future: self-imposed exile under new identities on an alien planet. There, known as Molly Pickford and Rick Cassidy, they become members of the Colonial Rangers, the international force sent to protect the colony from its native wildlife. They become friends with some of the female Rangers who one day will be the ones whose courage and smarts will determine the survival of the colony in a perilous future that is approaching faster than anyone could know. If you like David Weber's Honor Harrington series or David Drake's RCN series you will love Fierce Girls.
