No relationship is good all the time, but with the advice in this book, your relationship can overcome anything!

Relationships aren't easy. Two people will never see eye to eye on everything, and sometimes, a bad day at work, an off day, or the stress and pressure of day-to-day life can put strain on a tense situation and lead to arguments. Nobody's perfect, after all.

It's important to remember the big picture when it comes to the person you love.

Some days, they'll drive you crazy, be impossible to get along with, and you have to remember that they, too, are facing life's challenges. You're a team, but sometimes, it won't feel like it. You need to be the best partner you can be and help them just as they help you. Love isn't always easy, but it's always worthwhile.
