## Synopsis

---

Ever needed or wanted or been forced to rebuild your life? I'm currently on Debbie DeBerry 2.0 so I understand the rebuild all too well. Less than a year ago, Rachel was newly divorced and didn't know how she was going to provide for herself and her kids. For many years, she had a burning desire to flip houses. But she kept hearing she couldn't possibly manage a flip and she wasn't smart enough to run a house flipping business. So, she did as society trains women to do and put her dream on the back-burner while supporting everyone else pursuing theirs. Until right now in 2020 where she's knee-deep in the middle of her first flip. This is an episode not to be missed!
