When McKenzie Crawford learns that Ryan Bennet is coming home for the summer, she does what any logical girl with a broken heart would do. She relocates as far away as possible. There is no way that she is going to be in the same town as his crooked smile and deep brown eyes. Nope, not going to happen.

Some things aren't meant to last forever. In McKenzie's case, some things aren't even meant to begin, and it would be nice if her traitorous heart could get that memo. She needs a fresh start. She needs a chance for her conflicted heart to move on. She needs a Ryan free environment, to be surrounded by a new town and new people, and she is convinced that running from her problems is the best solution. Especially when that solution leads her straight to a hunky summer roommate that seems to be the answer to all her problems.

What McKenzie really needs is an antidote, and a strong one at that, to leave it all behind and forget ever meeting Ryan Bennet. Out of sight out of mind, right? At least, that's what McKenzie tells herself before learning that, try as you might, some people are simply unforgettable.
