In the tradition of *Aesop's Fables*, *The Frogs of Sawhill Ponds* are tales for children with mature questions and adults who have not forgotten childhood. Play with ideas and language offers delightful surprise as well as insight into the human condition. Sometimes the listener will not know whether to laugh, cry, or do both; other tales offer witty fun. Those who enjoy *Wind in the Willows*, *Winnie the Pooh*, or *The Little Prince*, will enjoy *Frog Tales*.
