Hey, we spend almost a third of our lives at the office. For some of us workaholics, that's a dramatic underestimation! Whether you're looking for a sexy first lesbian sex story or even a quirky tale of secretaries and sex toys, you'll love the steamy situations and erotic undertones in this collection. You probably don't want to read it when your boss is around because this office fun is absolutely NSFW! </p> <p>Warning: This audiobook contains very explicit descriptions of sexual activity and includes first lesbian sex, sex toys, office sex, rough sex, older man/younger woman, BDSM, first anal sex, bondage, and more. </p>
