From the author of *Vacillan* and *The Lights of Barbrin*, these three novella-length tales explore psychological themes latent in the classic Grimm versions. Rather than presenting two-dimensional "good" heroines pitted against "evil" step-mothers, *Grim* portrays fully realized characters grappling with shame and self-doubt, suffering at the hands of mothers best thought of as narcissistic in modern terminology. Due to their dark themes and some graphic sexual material, these tales are not for the faint of heart and are unsuitable for children.
