Shhh...I have a secret, or two. They don't know what really happened. They didn't ask, so I didn't explain.

Four years ago, my whole life changed in one night. I lost the loves of my life, and I suffered through something no one ever should.

Returning to my hometown with a little piece of them, I'm not surprised when they aren't thrilled to see me again.

I came back to Silver Valley University to better my future. To take back the education I should have had before

But they are here, The Silver Knights

Brody, Jax, and Chase, the cocky football jocks, and Lady Rain, the head cheerleader.

They want me gone, still holding something against me that they never fully understood. And now they're willing to do anything to make me leave.

Thankfully, my sexy neighbor is my saving grace in the hell they make for me.

I won't explain that night to them. I shouldn't have to.

If they think I'll just bow down like everyone else does, they have another thing coming.

Secrets eventually surface, bringing the truth to light.

Will the Knights take a knee when all is revealed?

Or is it too little too late?

Silver Valley University is a college bully Reverse Harem. This book may have some darker themes. Please be advised that sexual assault is a big topic in this story. Graphic sex. Swearing. Age gap.
