

Hydrogen Runner

author: Claudia K. Leber

2026-08

Synopsis

author	Claudia K. Leber
readBy	Dan Carroll
inLanguage	english

Earth has become civilized! The only fuel these days is hydrogen. Out near the sun where we collect the hydrogen with pirates, it is a little less civilized. My name is Martin Mercer. I'm a Hydrogen Runner. To be a runner, you have to think on your feet. Act without thinking. Use your instincts. Because on a run, you are reduced to one basic instinct, to survive!
