A heart-rending story of family tragedy, perfect for fans of Amanda Prowse and Jojo Moyes. Is holding on harder than letting go? Dan's life has fallen apart at the seams. He's lost his house and his job, and now he's going to lose his family, too. All he's ever wanted is to keep them together, but is everything beyond repair? Maria is drowning in grief. She spends her days writing letters that will never be answered. Nights are spent trying to hold terrible memories at bay, to escape the pain that threatens to engulf her. Jack wakes up confused and alone. He doesn't know who he is, how he got there, or why he finds himself on a deserted cliff top, but will piecing together the past leave him a broken man? In the face of real tragedy, can these three people find a way to reconcile their past with a new future? And is love enough to carry them through?
