Most teenagers set out unequipped to achieve. Just as there are laws that govern nature, there are also laws that govern performance and achievement. Unfortunately, teenagers and adults alike are either not aware of them or simply do not apply them. As a result, many people chase after goals and find that the results they desire constantly elude them.

If you want to achieve something or get somewhere in life, you must understand the fundamental and governing laws that turn dreams into reality. Over the last few hundred years of recorded history the common denominators that lead to personal success have consistently surfaced. Join TJ Hoisington as he shares with you these time-tested principles.
