Do you want to hear the narcissist's darkest secrets direct from their own mouth?

Is there a narcissist in your life that you're finding difficult to deal with?

Narcissists can make our lives a living hell, but by understanding them and then following a few simple guidelines, we can take back control and empower ourselves when dealing with these individuals. Whether the narcissist in your life is arrogant, overly-critical, haughty, bullying, bossy, negative, show offs, passive aggressive or simply downright egotistical, this book has the answers you're looking for!

In this book we'll interview a self-confessed narcissist and ask them 70 probing questions to understand why narcissists do what they do and why they apparently feel so little remorse for the way they use and abuse their victims. We'll ask such questions as:

- Is it easy to recognize a narcissist?
- Are there any signs I can look out for?
- What makes a narcissist happy?
- Don't you regret your behavior or feel bad about it at all?
- Do you ever offer sincere apologies?
- Why is it so hard to leave a narcissist?
- Can I fix a narcissist?
- And many, many more!

You will see that dealing with narcissists is actually easier than you think when you fully understand them. Once you understand these principles you'll be well on the way to taking back the power these people are currently exerting over you.

Don't let the narcissist in your life bully and abuse you for a moment longer! Take action now; empower yourself and regain control today!
