Stolen uranium, a partner on the run, and one dark secret. Hare has stolen imported goods since he can remember. Sure, it wasn't the most honest living, but in the conurb where amenities are scarce, there wasn't much opportunity for honest work.

Everything was going smoothly, and Hare kept a low profile until his partner suddenly decided to steal something priceless for himself. Now, Hare finds himself at the center of a police operation, desperately trying to find his partner with the help of his best friend, Chunk. As Hare embarks on a journey far and wide, will he be able to find him and bring him back? Or will he discover that there are much bigger secrets under play?

One thing is for sure, though. This journey is going to change Hare's life forever. The question is, will it be for better, or for worse? Explore an unforgiving dystopian science-fiction ride with thrills and surprises.
