

It Happened in Boston?

author: Russell H. Greenan, Jonathan Lethem

2026-07

Synopsis

author	Russell H. Greenan, Jonathan Lethem
readBy	Robert Fass
inLanguage	english

Originally published in 1968 to critical acclaim, Russell H. Greenan's brilliant, audacious mystery novel *It Happened in Boston?* quickly became an underground sensation and has emerged over 40 years later as a genuine cult classic. In this breathtakingly imaginative audiobook - now appearing in audio for the first time - we enter the mind of an unnamed artist of prodigious talent and intelligence who is determined to correct the world's wrongs via a direct confrontation with the Almighty, no matter what the consequences. A spellbinding tale told by a memorably unreliable narrator, *It Happened in Boston?* places you inside a vivid world that brilliantly and surprisingly interweaves art, genius, love, madness, betrayal, God - and murder.

In 2003 *IHIB?* was reprinted by the Modern Library with a new introduction by celebrated writer Jonathan Lethem and an afterword by the author, both included in this audio version.
