

Kansas Evolution Hearings

author: Kansas Board of Education

2026-07

Synopsis

authori¼š	Kansas	Board	of
inLanguagei¼š	english		

A subcommittee of the Kansas Board of Education holds hearings on whether the state's science curriculum should permit alternate theories to be taught alongside evolution. During the first three days of hearings, proponents of intelligent design present their views. They are represented by a retired lawyer, John Calvert, who heads the Intelligent Design Network of Shawnee Mission, Kansas. The witnesses are questioned by the members of the subcommittee and by attorney Pedro Irigonegaray, who supports the teaching of evolution.
