She will not be the same as when she left

Fire and Shadows

Scarlett Semiria sacrificed everything to keep her family, her Courts, and her twin flame safe. But the cost was more than she could have ever anticipated. And now she finds herself once again forced to make a terrible choice that could leave her so broken, even the stars won't be able to bring her back.

Light and Dark

Crown Prince Callan is more than happy to leave the Fire Court behind, along with the woman who chose someone else. But to protect his people and his kingdom, he is forced to enter into a dangerous deception that could cost him everything.

Beginnings and Endings

Fae Queen Talwyn Semiria has been waiting for decades for Scarlett to return home. She had expected to find a kindred spirit. What she got was a brash assassin who does things her own way and flouts all traditional decorum. She might play nice for now, but when faced with the evil that resides across the sea, she'll take it all and sacrifice everything.

Everything hangs in the balance

One wrong move, and the scales will tip

Only ashes will remain
