Is There a Six-Figure Freelance Developer in You?

Leaving the Rat Race with Python shows you how to nurture, grow, and harness your work-from-home coding business online - and live the good life!

It's an insider's guide to freelance developing. Start your new thriving coding business now!

- Do you want to learn about becoming a Python freelancer and start your thriving coding business online?
- Do you want to regain control of your life?
- Are you committed to succeeding in life and business?

This practical how-to book will help you nurture, grow, and harness your new online coding business plant - even if you've got little or no experience as a programmer and business owner.

If you follow the instructions in this book, you'll make this book the most profitable investment in your life, and you'll also create new joy, happiness, and a sense of independence and self-reliance.

Who This Book Is For?

- You're a coding business owner or online freelancer.
- You want to participate in the workforce disruption of the 21st century.
- You want to build and control more income streams for you and your family.

Who This Book Is NOT For?

If you want to be an employee for the rest of your life, this book is not for you. Period.
