Everybody dreams of a Hawaiian Vacation.... They sell you on the drinks with little umbrellas, dolphin watching, and long walks on the beach. Which probably happens, if you're that lucky schmuck living out your dream with your destination wedding, but if you're a fish out of water PI like me, there's no time for relaxing because trouble is never far behind. Instead of cocktails, I ended up dealing with the seedy underbelly of The Big Island. And I didn't see one damn dolphin while undercover on a boat, which was spilling over with drug dealers, kingpins, and pedophiles. Elin and Elena think Cade's family are the coolest people outside of Snapchat, but it's hard to meet the parents when your boyfriend is in his late 30s and has never had a serious relationship. I'd never missed my girls so much in my life, but Amy May, Bea, and Carmen are all dealing with issues of their own and can't come to my rescue. The only thing that may help me with this "vacation" is if I could get Lei'd with Cupcakes. Warning: This book contains foul language, sex, some violence, and shenanigans. If none of that bothers you, grab a cupcake and listen!
