Before God created the earth, he had you in mind. He foreknew all the moments and days in your life before you were even born. Life is moving fast. Days are becoming busier and time is becoming shorter as convenience increases.

Take a short pause with Jonathan once a day to learn how to become content and intentional with every moment God has gifted you. Then, you will have a better understanding of God's purpose for you here on earth.

Jonathan will take you on a short journey of showing you how to live an intentional lifestyle. Grow the right way through trying times by allowing them to shape you to be the person God has predestined you to be.
