Emily Flowers dreams of something more. Living a humble, if solitary, life as the local librarian, she looks forward to laying her head on her pillow each night to travel to a magical place where she has adventures with a wizard prince.

Kayden, prince of Zenith, the land of the setting sun, found his soulmate long ago. Her imagination and spirit has long fed his magic, but the time has come for him to collect his voluptuous bride. Can he convince her that some dreams are so powerful, they can become reality so he can finally taste her Magical Curves?
