With the rebellion now in full swing, shifter-mage hybrid Sunaya Baine has no time for distractions. She must find out the true identity of the Benefactor and pull the plug on the Resistance's funding before they succeed in their grand plans for genocide and destruction. But the heat is upon Sunaya now, and it demands to be sated. And since the Resistance has marked her for death, she can no longer walk freely amongst the very people she is trying to save. Death, danger, and desire hem Sunaya in on all sides, and with her friends caught up in their own problems, she cannot truly count on anyone except herself. Does Sunaya have what it takes to wrangle her unruly shifter instincts and embrace her heritage as a mage once and for all? Or will she succumb to the forces around her, and finally lose her way?
