****THIS IS A REVISED, ENHANCED AUDIO VERSION OF THIS BOOK (06/16/14)****

"Clearing Away a Mass of Eschatological Debris"

Dr. John Evans, Ph.D. University Professor of Alabama and Author

Just as the title implies, this book reveals how you have been deceived on a MASSIVE scale that scripture actually prophesied (Rev 12:9, 20:7-8), we have researched the numerous "prophetic understandings" being widely taught, and they are wrong. This, seven years later, when I began learning, still astonishes me. That is the mythbusting aspect of the book or 1st argument presented, the 2nd argument is the replacement offered. So, even if you disagree with the replacement, that is only the second argument and you are still freed from the myth!

The primary reason this deception is possible is because our priorities have not been in verifying what we think we know from the Word of God, but have been steeped in tradition. It has always been the same - when illumination, light has come to a people, the people scoffed.

If our understanding is built upon a foundation of sand (false traditions,) our house will sink. However, if built upon a rock (i.e. because we have a good understanding of the Old & NT) it will stand, and we will grow in the grace and knowledge (2 Pe 3:18) Christ brought, and we will be free (Jo 8:32). People deceived, do not know they are deceived nevertheless, help has arrived! We should never fear, but be excited to understand in new ways as God's Word corrects us.

If you're tired of wishy-washy stances, and want to be freed from all the cleverly devised, far-fetched fables being taught as Bible prophecy enslaving the many you need to hear this important book!

If the truth sets us free then deception is bondage. The redemptive, end time message known as the Mystery of the Gospel when not distorted, is the greatest theological thriller and love story ever told.
