Week 6: In Depth Entrepreneur Interviews

This is the sixth in a unique eight-week Business Mentoring Programme designed FOR entrepreneurs BY entrepreneurs.

Weeks 5 to 8 of the program delve deeper into the mindset of self-made millionaire entrepreneurs and explore the full range of subjects from Risk to making a million. Each day, for around 30 minutes, you'll hear one entrepreneur share his or her individual story with you, entertaining you, motivating you, and inspiring you as you learn.

Day 26: Lena Bjorck reveals her inner secrets so that you can build unstoppable confidence. Be prepared to be amazed by her inspiration. Through pure grit and determination, and with only a tiny amount of "seed money", Lena has overcome every imaginable obstacle to cater for the President of the United States and the Prime Minister of the UK.

Day 27: Duncan Bannatyne (of BBC's Dragons' Den) explains his repeatable formulas for success and explains why he is a successful entrepreneur, when his brothers are not. Duncan decided at the age of 30 that he was going to become a millionaire. He is now worth over 130 million pounds and has four multi-million companies behind him.

Day 28: Glenda Stone is pure inspiration for anyone who wants to break into the corporate world. She created a whole new market for women in business, a sector that never existed until she made it happen.

Day 29: Mark Marsland is the ultimate entrepreneur. You'll be inspired (and enlightened) by his personal odyssey from paid labourer to owner of his own hugely successful company, all whilst doing the one thing he loves: fishing!

Day 30: Chris Hughes shows you the golden rule of business. Chris took the bold leap from corporate world to entrepreneur and will reveal the real reason his new company has been able to dominate his industry.
