Shay is a quiet, mousy girl whose first semester at college isn't going how she wants. Instead of making friends, she sits in her dorm room every weekend by herself. A friend from down the hall finally makes her go out and takes her to a bar where she will have a whole new experience, discovering something within herself that she never thought she would find. After being the center of attention and being passed around at the bar, she is a whole new person and promises herself that this will be a great new chapter in her life. </p> <p>Warning: This audiobook contains very explicit sex, including gangbang sex, public sex, deep throat, rough sex, anal sex, and more. </p>
