Synopsis

author	Adam Kirstein
readBy	Eden Gabay
inLanguage	english

In the heart of postwar America, within the confines of New Haven, a city under the iron grip of an authoritarian regime known as 'The Regiment,' unfolds a gripping tale of love and resistance.

Meet James and Sybil, an ordinary couple whose lives are enmeshed in a web of government control, deceit, and the struggle for survival. The Regiment, a shadowy and oppressive entity, meticulously orchestrates every facet of the citizens' lives while skillfully masquerading as benevolent providers of happiness. Behind the facade of contentment, however, lies a sinister reality—The Regiment dictates their every move and controls their very perceptions.

In this dystopian society, the unexpected revelation that sex work is revered as a noble profession adds a layer of complexity to the story, challenging societal norms and beliefs. Meanwhile, traitors to The Regiment are subjected to harrowing public punishments during the notorious 'weekend rallies,' where fear and obedience are ruthlessly enforced. James, once a seemingly obedient citizen, ascends the ranks within The Regiment, a journey that leads him to uncover a treasure trove of long-guarded secrets about the inner workings of this oppressive regime. As James delves deeper into the heart of darkness, he and Sybil find themselves entangled in a perilous dance of survival, love, and resistance.

In this gripping narrative, 'New Haven' explores the resilience of the human spirit against a backdrop of government manipulation and control. Listeners will be drawn into a world where love becomes a beacon of hope, and the pursuit of truth takes center stage, offering a haunting reflection on the price of freedom in the face of tyranny.
