When a massive snowstorm prevents Hope from her usual holiday tradition - unwrapping presents at an idyllic mountain cabin with her sisters and their families - she faces a bleak Christmas Eve alone.

Then, the three hot guys who live upstairs invite Hope over for dinner, cocoa by the Christmas tree, and foot rubs. All the pleasure a woman could ever want - and more. Hope's wishes for a sensual Christmas miracle might just come true.

Note: This is a holiday tale involving a sexy doctor, a hot fireman, and an alpha cop. Women who fantasize about stretching out near a roaring fire with no responsibilities other than to gaze at three muscular dudes will love this novella.

There's a lot of jingle in these bells. Merry Christmas.
