The Emperor Henry of the Holy Roman Empire is dying, and his wife, the Empress Matilda, is in danger from those who would use her to gain the title and the power. King Henry of England sends Alfraed of Norton to rescue her and avoid a war. With enemies from France, Flanders and the empire, as well as Norman traitors, the handful of Northern Knights have to fight across Europe and back. A fast-moving novel that moves from Germany to the Scottish borders in the turbulent times of the early 12th century, when friends could become foes overnight.
